

# LOOK BOOK

2023 EDITION

## PRIDE OF PLACE

Welcome to our 2023 Lookbook, a collection of outdoor spaces that have been transformed into meaningful community places.

Places where people want to linger longer, taking pride of place in our neighbourhoods, towns, cities, schools, commercial centres and tourist precincts.

For more than 30 years, Urban Effects has worked alongside clients and communities in every corner of New Zealand – bringing the outdoors to life and life to the outdoors.

As street and park furniture specialists, we design, manufacture and supply innovative solutions inspired by human needs and a changing world.

Our 'placemaking' approach means we collaborate at every step, from concept to completion, to help clients reimagine and revitalise their spaces.

We focus on the purpose and potential of each place – and the needs and wants of individuals who will use it.

That's how we help create the unique character and great experiences that attract people to socialise, work, eat, rest, shop, play and learn every day.

As these pages highlight, the outside world is more exciting than ever.

We hope you're just as inspired as we are.
