

SmartBeam

SmartBeam is a groundbreaking solution that effortlessly upgrades regular benches into smart, sustainable, and connected urban seating. It generates 100% clean solar energy, allowing you to power your portable devices. At night, LED lights create a safer environment in a sustainable way by using solar energy stored in a battery. Currently available in our Matiri range.

Customisation available

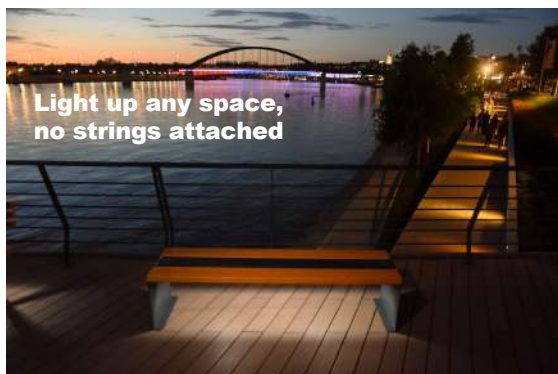

Environmental credentials

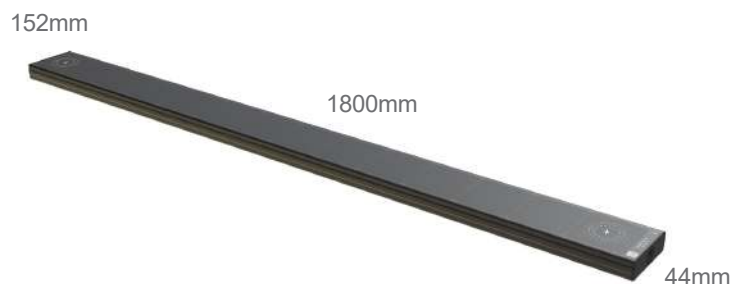

Part of a range

Standard features

- Wireless charging
- The LED strip lights come on when the light (lux) sensor is triggered
- Coolers
- User counter

Specifications

Charge Your Devices with Pure, Emission-Free Solar Energy
