Piha240LBin Enclosure

The Piha Bin Enclosure offers a durable and attractive solution for concealing 240L wheeled bins in public spaces.

Constructed from mild steel, which can be powdercoated, it can be customised with Futurewood inserts to complement the surrounding environment while providing a low-maintenance finish.

Customisation available

Quality & durability

- Bin enclosure designed to suit a 240L wheeled bin
- Durable mild-steel construction which can be powdercoated
- Futurewood inserts provide a warm, timber-look finish with low maintenance
- Enclosed design helps conceal the wheeled bin for a tidier streetscape
- Protective hood helps shelter the bin opening from the elements
- Secure access door for convenient bin removal and servicing
- Surface-mounted installation

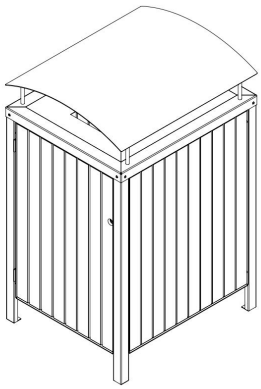

Ideal for
